ASH GROVE CEMENT WEST, INC.

Inter-Office Memorandum

Date July 8, 1986

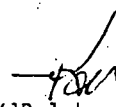

To Jim Post

From Ken Rone

Copies to Erik Voldbaek

F Activity Report
Subject Week Ending 7/6/86

1. Transferring plant coal to Durkee. Returning with Type I clinker.
2. Blubber Bay systems generally operational. Three truckloads of material put through. Drive guards and wash water piping remain to be installed. Anticipate full operation by 7/11/86. Contract addition will total \$61,000 due to design changes and component purchases.
3. PSAPCA inspector of past eight years transferred to Tacoma in department shake-up. A replacement has yet to be assigned to our area.
4. Clinker shed enclosure complete.
5. Stoneway Concrete began taking Ideal 1/II at a rate of 270 tons/day. Ordered 1500 tons from Ideal; they delivered 1250 tons.
6. Completed offloading of Genstar clinker after conveyor belt was replaced. Clinker was 210° - 220° F.
7. No accidents. No visitors.
